OUR PRESTIGIOUS CLIENTS LIST

The Metro Group was originally founded in 1995. So, it is well into its third decade of successful operation. During this period the group has displayed a relentless pursuit of excellence. In the face of obvious market challenges the Metro Group has remained steadfast in its commitment to innovation. Today the Metro Group has become a household name when it comes to Aluminium Composite Panels, Aluminium Partition Panels, Plywood, Particle Boards, MDF Boards, HPL and PVC Laminates.

Metro Group manufactures its products across six top notch manufacturing units spread over Himachal Pradesh, Gujarat and Haryana. All the production units are equipped with machines imported from Germany, Japan, China, Italy and Sweden.

Metro Group was awarded the title of Power Brands Rising Star 2018 at a glittering ceremony at Hotel Orchid, Mumbai. Mr. Aman Garg, Director of Metro group was felicitated by Raveena Tandon (Indian Bollywood actress) and H. E. Adam Burakowski (Polish Ambassador to India). The event was conducted in association with Times Now and Bright Outdoor Media.

Metro Group has incessantly engaged in the endeavor of improving its product line and quality of product delivered. Customer satisfaction has always been the group's foremost priority. Today the group has made environmental friendly sustainability a part of its corporate identity by removing harmful materials throughout its supply chain and production cycle.

METRO GROUP

CROSSBOND (Aluminium Composite Panel)

At Crossbond, we believe that beautiful décor can have numerous positive influences on the project and all the people involved. In our pursuit to beautify your creations, Crossbond Aluminium Composite Panel (ACP) offers wide variety of designs and colours. Our industry leading quality standards and ability to incorporate latest global trends makes us a consistent partner for all your needs.

Crossbond ACP is manufactured in two facilities, the first located in Mehsana, Gujarat and second located in Kala Amb, Himachal Pradesh. Our multi-location presence helps us provide best in class products developed efficiently and delivered economically. With 4 state-of-the-art ACP lines the total production capacity exceeds 55 million sqft per annum.

Crossbond ACP is carefully crafted to exceed interior and exterior needs of our valuable customer while maintaining high quality standards. Each panel comes with advanced anti-fading technology to sustain adverse weather effects. Specially formulated, high-quality polyvinylidene difluoride (PVDF) paints are used to guarantee a minimum life expectancy of 10 years.

Crossbond ACP is distributed and supported through an extensive network of exclusive dealers, distributors and company warehouses across India. Our distribution partners have been carefully selected on the strength of their customer support capability and outstanding ethics. Service and trust are hallmarks of our long-term association with our distribution partners.

The demand for Crossbond ACPs has been surging because it offers numerous creative and practical fabrication possibilities for walls, signage, paneling and cladding applications. Its machining ease is known to shorten project duration and decrease cost. Crossbond ACPs are actively being used to beautify offices, hospital, shopping malls, residential apartments and so on. They have played an integral role in transforming and modeling modern India.

PRODUCT PROFILE

Aluminium Composite Panels (ACPs) are sandwiched panels, which have two layers of aluminium sheets bonded with a polyethylene core or non-combustible mineral-filled core. The top surface is coated with different shades of PVDF paint.

ACP is manufactured in different configurations of thickness with multiple aluminium coil thickness options, as technically required. The PVDF surface protection coating makes it exterior grade.

It is the combination of formability, flatness, stability and weather resistance that characterizes ACPs. Due to its composite structure ACP can take on many different shapes.

Crossbond is India's largest Aluminium Composite Panel manufacturer. Our products are designed for long years of durable & minimal maintenance performance across a variety of demanding weather conditions. We ensure quality you can always rely on, hence, our ACPs come with industry leading 10-year warranty.

QUALITY

Crossbond understands better than anyone that quality is success.

Pre-defined quality checks at each stage of the manufacturing process helps confirm that the stringent standards and specifications set at the time of planning are actually met when the product is delivered.

All our manufacturing processes are ISO 9001:2015 certified. Continuous improvement in quality and lean manufacturing is always followed as a part of this certification.

Our organisation is ISO 14001:2015 accredited. We follow the best environmental practices worldwide so that our operations have the minimum impact on the environment.

Our OHSAS 18001:2007 certification implies that we care greatly about the health and safety of our employees. Internationally accepted best practice are employed at our company to ensure employee safety, security and a mutual respect for the growth of the individual.

FEATURES

 Advanced Anti Fading Technology	 PVDF Coating	 Minimal Maintenance	 Low Carbon Footprint	 Termite Borer & Fungus Resistant	 No Trees Harmed	 Water Proof	 Chemical & Weather Resistant
